**MEMORANDUM FOR THE RECORD**

**SUBJECT: Incinerator for Emergency File Destruction**

1. On 30 October the undersigned was called by  Solar Aircraft, and was quoted prices on 4, 10, and 25 incinerators. The unit price for four incinerators is \$3,460, for ten, \$3,060, and for twenty-five, \$2,770. The tooling for the incinerators would be capable of producing eight per month and would cost \$8,623 extra. Delivery of the first unit would be in 18 weeks, the second, 2 weeks later, and then one per week. The units would be produced in San Diego. Before the contract is placed or a final figure arrived at, a lengthy and detailed engineering conference will be necessary as Solar would like to modify the unit to reduce the price.
